

Sian Ahmed Asif

Roll Number: FA24-BCS-118 | Section A

Assignment 1 Statement

CSC336 — Web Technologies — Fall 2026

Assignment 1 is a standalone warm-up task, separate from the running e-commerce website built across Assignments 2–4. The task is to build a personal CV / resume page as a static web page (HTML and CSS), showcasing the student's profile, contact information, skills, education, work experience, and projects.

As per the course submission rules, the finished work is committed and pushed into the **assignment-1** folder of the student's semester GitHub repository, along with this completion PDF containing the statement, screenshots of the working page, and the full source code.

Screenshot — CV Page Running in Browser

Figure 1: cv.html rendered in the browser, showing the sidebar profile, contact details, skills, education, work experience and projects sections.
